Guia de Estudio Explicativa - Volumen 1

Estilo libro de texto: 70% explicacion, 30% practica

Como usar esta guia

Leé cada unidad en orden. B1 construye sobre A2: primero se entiende la idea, después se automatiza la forma.

No memorices solo reglas. Mirá los ejemplos, copió tres, cambiales una palabra y producí una frase propia.

Usá las respuestas para entender por qué una opción es correcta, no solamente para contar puntos.

La guía está pensada para estudiar desde una app de PDF: capítulos separados, tablas cortas y práctica con respuesta.

Before you start: what B1 grammar is really about

En A1 y A2 aprendés a construir frases correctas. En B1 empezás a elegir entre opciones. Ya no alcanza con saber que existe el Past Simple; tenés que decidir si corresponde Past Simple, Present Perfect o Past Continuous. Esa elección depende del significado.

Por eso esta guía explica cada tema desde tres ángulos: la idea, la forma y el uso real. La idea te dice qué querés comunicar. La forma te da la estructura. El uso real te muestra cuándo la elegiría una persona en una conversación, un email o un examen.

Regla de oro de B1

Cuando dudes entre dos estructuras, no preguntes primero "cual es la regla?". Preguntá: "que quiero decir exactamente?". La gramática es una herramienta para expresar significado.

Mapa rapido de tiempos y funciones

Area	What it helps you express	Typical B1 example
Present Perfect	Experiencias, resultados y conexión pasado-presente	I have already finished.
Past Continuous	Acciones en progreso en el pasado	I was studying when you called.
Conditionals	Consecuencias reales o hipotéticas	If I had time, I would help.
Passive Voice	Enfocar la acción o el resultado, no la persona	The window was broken.
Reported Speech	Contar lo que alguien dijo	She said she was tired.
Relative Clauses	Agregar información sobre personas, cosas o lugares	This is the teacher who helped me.

Unit 1: Present Perfect

Objetivo de la unidad

Entender cómo hablar de experiencias, resultados presentes, acciones recientes y situaciones que empezaron en el pasado y continúan ahora.

Idea central

El Present Perfect conecta el pasado con el presente. La acción ocurrió antes de ahora, pero tiene importancia en el momento presente.

La dificultad para hispanohablantes es que a veces se traduce como "he hecho", pero muchas veces en español usamos pasado simple. En inglés, la elección depende de si el momento exacto importa o no.

No lo estudies como un tiempo de pasado. Estúdialo como un puente: algo pasó antes, y eso afecta lo que digo ahora.

Preguntas que esta unidad responde

- ¿Alguna vez hiciste algo?
- ¿Ya terminaste algo?
- ¿Qué acaba de pasar?
- ¿Desde cuándo ocurre una situación?
- ¿Cuál es el resultado ahora?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Experiencias de vida: I have been to Chile. No digo cuándo; importa la experiencia.
- Resultados presentes: I have lost my keys. El resultado es que ahora no tengo las llaves.
- Acciones recientes: She has just arrived. La llegada acaba de ocurrir.
- Situaciones que continúan: We have lived here for five years. Empezó antes y sigue ahora.

- Noticias o cambios recientes: Prices have increased. El cambio importa en el presente.

2. Forma y estructura

Situation	Structure	Example
Affirmative	Subject + have/has + past participle	I have finished. / She has arrived.
Negative	Subject + have/has + not + past participle	They have not called. / He has not eaten.
Question	Have/Has + subject + past participle?	Have you seen it? / Has she left?
Short answers	Yes, subject + have/has. No, subject + haven't/hasn't.	Yes, I have. / No, she hasn't.

Nota de forma

Have se usa con I, you, we, they. Has se usa con he, she, it. El verbo principal siempre va en participio: worked, gone, seen, eaten, written.

3. Explicacion paso a paso

Uso 1: experiencias. Decís I have visited Rome cuando querés decir que esa experiencia forma parte de tu vida. Si agregás una fecha concreta como last year, yesterday o in 2023, normalmente pasás a Past Simple: I visited Rome in 2023.

Uso 2: resultado presente. I have broken my glasses no es solo una acción pasada; significa que ahora mis anteojos están rotos. El resultado está vivo en la situación actual.

Uso 3: just, already y yet. Just marca algo muy reciente. Already indica que algo ocurrió antes de lo esperado o antes de ahora. Yet se usa en preguntas y negativas para hablar de algo esperado que puede ocurrir.

Uso 4: since y for. Since marca el punto de inicio: since Monday, since 2021. For marca duración: for two days, for three years. Con situaciones que siguen ahora, en inglés se usa Present Perfect, no Present Simple.

Para pensar como en inglés, no empieces traduciendo desde español. Pensá: "¿me importa cuándo ocurrió?" Si la respuesta es no y la conexión con ahora es fuerte, probablemente necesites Present Perfect.

Memoriza esto

have/has + participio

Ever = alguna vez en preguntas.

Never va entre have/has y el participio: I have never seen it.

Since = punto de inicio. For = duración.

Lo que suelen evaluar

Suelen poner distractores con last week, yesterday o in 2020. Si hay tiempo terminado y específico, usá Past Simple.

También preguntan la posición de already, just, never y yet. Yet normalmente va al final: I haven't finished yet.

4. Ejemplos explicados

English	Spanish idea	Why it works
I have never eaten sushi.	Nunca comí sushi.	Never va antes del participio eaten.
Have you ever met a famous person?	¿Alguna vez conociste a alguien famoso?	Ever aparece en preguntas de experiencia.
She has already left.	Ella ya se fue.	Already muestra que la acción ya ocurrió.
I haven't finished yet.	Todavía no terminé.	Yet al final en negativa.
They have lived here since 2020.	Viven acá desde 2020.	Since marca el inicio.
We have known each other for ten years.	Nos conocemos desde hace diez años.	For marca duración.
He has just called me.	Él acaba de llamarme.	Just marca acción muy reciente.
I have lost my wallet.	Perdí mi billetera y ahora no la tengo.	El resultado presente importa.
She has been very busy recently.	Ella estuvo muy ocupada últimamente.	Recently conecta pasado reciente con presente.
Prices have gone up.	Los precios subieron.	Importa el cambio actual.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
I am here since 2021.	I have been here since 2021.	La situación empezó en el pasado y continúa ahora.
She has went home.	She has gone home.	Después de has va participio, no pasado simple.
I have seen him yesterday.	I saw him yesterday.	Yesterday es tiempo pasado terminado y específico.
Have you ever went there?	Have you ever been there?	Con ever se usa participio.
I have never been in London.	I have never been to London.	Para visitar ciudades o países se usa been to.
I didn't finish yet.	I haven't finished yet.	Con yet, en inglés estándar se usa Present Perfect.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

6. Practica guiada

Completá las oraciones. Primero pensá el significado; después elegí la forma.

- 1 Complete: I ____ never ____ Indian food. (try)

- 5 Complete: Have you finished ____?
- 6 Complete: We have studied English ____ six months.

2. has / sent - She lleva has y sent es participio.
3. have lived - Since 2022 indica situación que continúa.
4. He has gone to school.
5. yet - En preguntas suele ir al final.
6. for - six months es duración.
7. since - childhood es punto de inicio.

4. I have already finished my homework.

Puedo explicar cuándo se usa esta estructura sin traducir palabra por palabra.

Puedo reconocerla en un texto corto.

Puedo usarla en una oración propia.

Puedo corregir al menos tres errores comunes de esta unidad.

Unit 2: Present Perfect vs Past Simple

Objetivo de la unidad

Aprender a elegir entre experiencia/conexion presente y pasado terminado con tiempo específico.

Idea central

Este contraste es uno de los más importantes de B1. El error común es pensar que ambos significan "pasado". En realidad, uno mira la conexión con ahora y el otro ubica el evento en un momento terminado.

Present Perfect deja el momento abierto o no mencionado. Past Simple cierra el momento: yesterday, last year, in 2020, when I was a child.

Una buena pregunta mental es: "¿Estoy contando cuándo ocurrió o estoy hablando de la experiencia/resultado?".

Preguntas que esta unidad responde

- ¿Importa el momento exacto?
- ¿El periodo está terminado?
- ¿Estoy hablando de experiencia o de historia?
- ¿La frase tiene last, ago, yesterday o in + year?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Usá Present Perfect para experiencias sin tiempo específico: I have seen that film.
- Usá Past Simple para eventos terminados con tiempo específico: I saw that film last night.
- Usá Present Perfect para periodos no terminados: I have studied a lot this week. Si la semana continúa, se mantiene abierta.
- Usá Past Simple para periodos terminados: I studied a lot last week.

- En una conversación, se puede empezar con Present Perfect y seguir con Past Simple: Have you been to Peru? Yes, I went there in 2022.

2. Forma y estructura

Situation	Structure	Example
Present Perfect	have/has + past participle	I have visited Mexico.
Past Simple regular	verb + -ed	I visited Mexico in 2022.
Past Simple irregular	irregular past form	I went to Mexico last year.
Question contrast	Have you ever...? / When did you...?	Have you ever been there? When did you go?

Nota de forma

No mezcles marcadores de Past Simple con Present Perfect: yesterday, last night, two days ago, in 2019 normalmente piden Past Simple.

3. Explicación paso a paso

Present Perfect funciona como una cámara que enfoca el presente: "esto forma parte de mi experiencia" o "esto tiene resultado ahora". Past Simple funciona como una cámara histórica: "esto ocurrió en ese momento".

Decir I have lost my keys significa que ahora hay un problema. Decir I lost my keys yesterday puede ser simplemente parte de una historia; tal vez ya las encontré.

Con preguntas, Have you ever...? abre el tema. Después, si preguntás detalles, pasás a Past Simple: Where did you go? Who did you go with? What did you do there?

Con periodos como today, this week, this year, la elección depende de si el periodo sigue abierto. Si hoy no terminó, Present Perfect es posible: I have done a lot today. Si hablás de ayer, Past Simple: I did a lot yesterday.

Memoriza esto

Present Perfect = experiencia o conexión presente.

Past Simple = momento terminado o historia concreta.

Never uses Present Perfect: I have never tried it.

Ago siempre llama a Past Simple: I met him two years ago.

Lo que suelen evaluar

Los ejercicios suelen poner una oración con un marcador temporal. Subrayá primero las palabras de tiempo antes de elegir el verbo.

Si ves ever, never, already, yet, just, since o for, pensá en Present Perfect. Si ves yesterday, last, ago, when, in 2020, pensá en Past Simple.

4. Ejemplos explicados

English	Spanish idea	Why it works

Incorrect	Correct	Explanation

When have you arrived?	When did you arrive?	When pregunta por momento concreto.
I have met him two years ago.	I met him two years ago.	Ago = Past Simple.

Puedo corregir al menos tres errores comunes de esta unidad.

Unit 3: Past Continuous

Objetivo de la unidad

Aprender a describir acciones que estaban en progreso en un momento del pasado.

Idea central

El Past Continuous muestra una acción como una escena en progreso. No enfoca el inicio ni el final; enfoca lo que estaba ocurriendo en ese momento.

Se usa mucho en historias porque crea contexto: qué estaba pasando, qué hacía una persona, cuál era la situación de fondo.

En español muchas veces se parece a "estaba + gerundio": I was studying = estaba estudiando.

Preguntas que esta unidad responde

¿Qué estaba pasando?

¿Qué acción estaba en progreso cuando ocurrió otra?

¿Cómo doy contexto en una historia?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Acción en progreso en un momento pasado: At 8 p.m., I was cooking dinner.
- Acción larga interrumpida por otra corta: I was sleeping when the phone rang.
- Dos acciones simultáneas: She was reading while I was watching TV.
- Contexto narrativo: It was raining and people were running.
- Planes pasados que cambiaron, en algunos contextos: I was going to call you, but I forgot.

2. Forma y estructura

Situation	Structure	Example
Affirmative	was/were + verb-ing	I was studying. / They were playing.
Negative	was/were + not + verb-ing	She wasn't listening. / We weren't waiting.
Question	Was/Were + subject + verb-ing?	Were you sleeping? / Was he working?
Short answers	Yes, subject + was/were. No, subject + wasn't/weren't.	Yes, I was. / No, they weren't.

Nota de forma

Was se usa con I, he, she, it. Were se usa con you, we, they. El verbo principal termina en -ing.

3. Explicacion paso a paso

Imaginá una película pausada en un momento del pasado. Todo lo que aparece en esa imagen puede expresarse con Past Continuous: people were talking, music was playing, the sun was shining.

Cuando una acción corta interrumpe una acción larga, la acción larga suele ir en Past Continuous y la corta en Past Simple: I was walking home when I saw an accident.

No todos los verbos se usan igual de natural en continuous. Verbos de estado como know, believe, love o want generalmente no se usan en continuo en contextos básicos: I wanted, no I was wanting.

En writing B1, Past Continuous hace que una historia sea más rica. En vez de escribir: I walked home. It rained. I saw my friend. podés escribir: I was walking home when it started raining, and then I saw my friend.

Memoriza esto

Past Continuous = was/were + verb-ing.

Acción larga o fondo = Past Continuous.

Acción corta que interrumpe = Past Simple.

While suele introducir acciones en progreso; when suele introducir la interrupción.

Lo que suelen evaluar

Suelen evaluar when y while. Atención: while I was studying, my brother called. / I was studying when my brother called.

También aparecen imágenes: describí lo que las personas estaban haciendo usando was/were + -ing.

4. Ejemplos explicados

English	Spanish idea	Why it works
I was doing my homework at 7 p.m.	Estaba haciendo mi tarea a las 7.	Acción en progreso en un momento pasado.

It was snowing when we arrived.	Estaba nevando cuando llegamos.	Contexto de fondo.
What were you doing at midnight?	¿Qué estabas haciendo a medianoche?	Pregunta por acción en progreso.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
I was study.	I was studying.	Después de was/were va verbo con -ing.

Incorrect	Correct	Explanation
They was playing.	They were playing.	They usa were.
I walking when I saw her.	I was walking when I saw her.	Falta was.
While I walked, I saw an accident.	While I was walking, I saw an accident.	While suele marcar acción en progreso.
I was knowing the answer.	I knew the answer.	Know es verbo de estado; en B1 usá Past Simple.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

6. Practica guiada

Completá las oraciones. Primero pensá el significado; después elegí la forma.

Unit 4: Past Simple vs Past Continuous

Objetivo de la unidad

Distinguir entre acciones terminadas, acciones en progreso, acciones de fondo e interrupciones en narraciones.

Idea central

Past Simple presenta hechos completos: I opened the door. Past Continuous presenta acciones en progreso: I was opening the door.

La diferencia no siempre está en la traducción al español, sino en el enfoque. El Past Simple avanza la historia; el Past Continuous pinta la escena.

En B1, esta diferencia aparece constantemente en historias, anécdotas y ejercicios con when/while.

Preguntas que esta unidad responde

¿La acción terminó o estaba ocurriendo?

¿Es la acción principal o el fondo?

¿When o while me ayuda a decidir?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Past Simple para acciones completas y secuencias: I woke up, got dressed and left.
- Past Continuous para acciones en progreso: I was getting dressed at 7:30.
- Past Continuous para contexto: The birds were singing and the sun was shining.
- Past Simple para interrupciones: I was sleeping when the phone rang.
- Past Simple para hábitos pasados si no hablás de progreso: I played tennis every Saturday.

2. Forma y estructura

Situation	Structure	Example
Past Simple	verb in past form	I watched TV. / She went home.
Past Continuous	was/were + verb-ing	I was watching TV. / They were leaving.
When pattern	Past Continuous + when + Past Simple	I was driving when it started raining.
While pattern	While + Past Continuous, Past Simple/Past Continuous	While I was driving, it started raining.

Nota de forma

When puede aparecer con acción corta; while suele aparecer con acción larga. No es una regla absoluta, pero ayuda mucho en B1.

3. Explicacion paso a paso

Pensá en una historia como una película. El Past Continuous es la escena de fondo: estaba lloviendo, la gente caminaba, el protagonista esperaba. El Past Simple es la acción que mueve la historia: alguien llegó, sonó el teléfono, empezó el problema.

Si escribís todo en Past Simple, tu historia puede sonar como una lista. Si agregás Past Continuous, creás ambiente. Compare: I arrived at the station. It rained. People waited. Better: When I arrived at the station, it was raining and people were waiting outside.

Cuando una acción corta interrumpe una larga, no elijas por duración real, sino por función en la frase. The phone rang es corta y completa; I was studying es la acción en progreso.

A veces ambas formas son gramaticales pero cambian el enfoque. I watched TV at 8 = miré tele como acción pasada. I was watching TV at 8 = a las 8 estaba en medio de esa actividad.

Memoriza esto

Past Simple = acción completa / evento principal.

Past Continuous = acción en progreso / fondo.

When often introduces the interruption.

While often introduces the background action.

Lo que suelen evaluar

Los textos de storytelling suelen pedir alternar tiempos. Subrayá acciones largas y cortas antes de completar.

Si aparecen dos acciones simultáneas con while, probablemente ambas pueden ir en Past Continuous.

4. Ejemplos explicados

English	Spanish idea	Why it works
I was walking home when I saw an accident.	Caminaba a casa cuando vi un accidente.	Walking = fondo; saw = evento.
While she was cooking, the lights went out.	Mientras cocinaba, se cortó la luz.	Cooking estaba en progreso; went out interrumpe.
They were talking while I was trying to sleep.	Hablaban mientras yo intentaba dormir.	Dos acciones en progreso.
I opened the window and looked outside.	Abrí la ventana y miré afuera.	Secuencia de acciones completas.
At 10 p.m., we were watching a film.	A las 10 mirábamos una película.	Acción en progreso en ese momento.
He dropped his phone while he was running.	Se le cayó el teléfono mientras corría.	Dropped es evento puntual.
She was wearing a red coat when I met her.	Llevaba un abrigo rojo cuando la conocí.	Wearing describe estado visual.
I didn't hear you because I was listening to music.	No te escuché porque estaba escuchando música.	La causa era una acción en progreso.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
I was saw an accident.	I saw an accident.	See como evento completo va en Past Simple.
When I was arriving, I called you.	When I arrived, I called you.	Arrive suele ser acción completa.
While I cooked, the phone was ringing.	While I was cooking, the phone rang.	Para interrupción puntual, rang.
I watched TV when you called.	I was watching TV when you called.	Si querés decir que estabas en medio de la acción, usá Past Continuous.
They were went home.	They went home.	Past Continuous necesita verb-ing, no pasado simple.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

Unit 5: Used To

Objetivo de la unidad

Hablar de hábitos, rutinas o estados del pasado que ya no son iguales ahora.

Idea central

Used to sirve para comparar el pasado con el presente. Dice: antes era así, ahora probablemente no.

Se usa con hábitos pasados y estados pasados: I used to play football. She used to live in a small town.

No es lo mismo que Past Simple. Past Simple solo dice que algo ocurrió; used to sugiere repetición o una situación antigua.

Preguntas que esta unidad responde

¿Qué hacías antes?

¿Qué era diferente en tu vida?

¿Cómo hablo de hábitos pasados que ya cambiaron?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Hábitos pasados: I used to play video games every day.
- Rutinas antiguas: We used to walk to school.
- Estados pasados: She used to be very shy.
- Contrastes con el presente: I used to hate coffee, but now I love it.
- Descripciones de infancia o etapas anteriores: When I was a child, I used to visit my grandparents every weekend.

2. Forma y estructura

Situation	Structure	Example
Affirmative	subject + used to + base verb	I used to live here.
Negative	subject + didn't use to + base verb	She didn't use to like tea.
Question	Did + subject + use to + base verb?	Did you use to play football?
Contrast	used to..., but now...	I used to be shy, but now I'm confident.

Nota de forma

En afirmativa se escribe used to. En negativa y pregunta, después de did/didn't se usa use to, sin -d: Did you use to...?

3. Explicacion paso a paso

La clave de used to es el contraste. Si decís I used to live in Córdoba, normalmente la persona entiende que ya no vivís ahí. No siempre lo decís explícitamente, pero está implícito.

Con acciones únicas no se usa used to. No decís I used to visit London in 2022 si fue un solo viaje. Decís I visited London in 2022.

Used to puede hablar de estados, no solo acciones: I used to have long hair, My town used to be quieter. Esto lo hace muy útil para describir cambios.

En speaking B1, used to te permite contar experiencias personales con más naturalidad: When I was younger, I used to spend hours drawing, but now I don't have much time.

Memoriza esto

Used to = antes sí, ahora no o ahora diferente.

Affirmative: used to + verb.

Negative/question: didn't use to / Did you use to?

No lo uses para acciones únicas.

Lo que suelen evaluar

Suelen evaluar la forma negativa y pregunta porque muchos alumnos escriben didn't used to.

También piden completar textos sobre infancia o cambios de vida.

4. Ejemplos explicados

English	Spanish idea	Why it works
I used to play tennis.	Antes jugaba al tenis.	Hábito pasado; ahora tal vez no.

Unit 6: First Conditional

Objetivo de la unidad

Hablar de consecuencias posibles y reales en el futuro.

Idea central

El First Conditional se usa cuando una situación futura es posible o realista. No significa que seguro ocurrirá; significa que puede ocurrir.

La estructura combina una condición con una consecuencia: If it rains, I will stay home.

La parte con if usa Present Simple, aunque hable del futuro. Este es el punto que más confunde a estudiantes hispanohablantes.

Preguntas que esta unidad responde

¿Qué pasará si ocurre algo?

¿Cómo hablo de consecuencias reales?

¿Por qué después de if no va will?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Consecuencias futuras reales: If I study, I will pass the exam.
- Advertencias: If you touch that, you will get hurt.
- Promesas: If you help me, I will help you.
- Planes dependientes de una condición: If it is sunny, we will go to the beach.
- Instrucciones con consecuencia: If you press this button, the machine will start.

2. Forma y estructura

Situation	Structure	Example
Basic form	If + Present Simple, will + base verb	If it rains, I will stay home.
Reverse order	Will + base verb + if + Present Simple	I will stay home if it rains.
Negative condition	If + don't/doesn't + verb, will...	If you don't hurry, you will be late.
Modal result	If + Present Simple, can/may/might/should + verb	If you finish early, you can leave.

Nota de forma

Nunca pongas will después de if en el First Conditional básico. Incorrect: If it will rain.
Correct: If it rains.

3. Explicacion paso a paso

El First Conditional habla de situaciones posibles. If I win the game, I will celebrate significa que ganar es una posibilidad real. No es fantasía; es una situación abierta.

La parte con if presenta la condición. La otra parte presenta el resultado. El orden puede cambiar sin cambiar el significado: If I have time, I will call you. / I will call you if I have time.

Cuando la oración empieza con if, se pone coma después de la condición. Cuando empieza con el resultado, normalmente no se usa coma: If I see Tom, I will tell him. / I will tell Tom if I see him.

En conversaciones reales, will puede sonar como decisión, promesa o predicción. También podés usar can, may, might o should según el significado: If you are tired, you should rest.

Memoriza esto

If + Present Simple, will + verb.

La condición usa presente, aunque el significado sea futuro.

Coma si if va primero.

First Conditional = posibilidad real.

Lo que suelen evaluar

La trampa típica es escribir If I will have time. En B1, casi siempre debe ser If I have time.

También pueden pedir elegir entre First y Second Conditional: real possibility vs hypothetical situation.

4. Ejemplos explicados

English	Spanish idea	Why it works
If it rains, we will cancel the picnic.	Si llueve, cancelaremos el picnic.	Condición futura posible.
I will call you if I need help.	Te llamaré si necesito ayuda.	Sin coma porque if va segundo.
If she studies, she will pass.	Si estudia, aprobará.	Consecuencia realista.
If you don't leave now, you will miss the bus.	Si no salís ahora, perderás el bus.	Advertencia.
If I finish early, I can help you.	Si termino temprano, puedo ayudarte.	Resultado con can.
If he is late again, the teacher will be angry.	Si llega tarde otra vez, el profesor se enojará.	Predicción.
You will feel better if you sleep.	Te sentirás mejor si dormís.	Resultado primero.
If we save enough money, we will travel next year.	Si ahorramos suficiente, viajaremos el año que viene.	Plan dependiente.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
If it will rain, I will stay home.	If it rains, I will stay home.	Después de if va Present Simple.
If she study, she will pass.	If she studies, she will pass.	Present Simple con he/she/it lleva -s.

Incorrect	Correct	Explanation
I call you if I will arrive.	I will call you if I arrive.	Resultado con will; condición en presente.
If I have time I will call you.	If I have time, I will call you.	Conviene coma si if va primero.
If you won, you will celebrate.	If you win, you will celebrate.	First Conditional usa present en la condición.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

6. Practica guiada

Unit 7: Second Conditional

Objetivo de la unidad

Hablar de situaciones hipotéticas, imaginarias o poco probables en el presente o futuro.

Idea central

El Second Conditional no habla principalmente del pasado, aunque use una forma pasada. Habla de imaginación, hipótesis o situaciones poco probables.

If I had more time, I would travel. No significa que tuve tiempo; significa que ahora no tengo suficiente tiempo y estoy imaginando otra realidad.

Esta estructura es esencial para dar consejos, hablar de sueños, imaginar escenarios y responder preguntas hipotéticas.

Preguntas que esta unidad responde

¿Qué haría si...?

¿Cómo hablo de sueños o situaciones imaginarias?

¿Por qué uso pasado para hablar del presente/futuro?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Situaciones imaginarias: If I were famous, I would live in New York.
- Situaciones poco probables: If I won the lottery, I would buy a house.
- Consejos con If I were you: If I were you, I would apologize.
- Deseos o cambios imaginados: If I had more free time, I would learn French.
- Preguntas hipotéticas: What would you do if you found a wallet?

2. Forma y estructura

Situation	Structure	Example
Basic form	If + Past Simple, would + base verb	If I had money, I would travel.
Question	What would + subject + do if + Past Simple?	What would you do if you won?
Negative	If + Past Simple, would not + verb	If I were you, I wouldn't do that.
With could/might	If + Past Simple, could/might + verb	If I had a car, I could drive there.

Nota de forma

En situaciones formales o de examen, se recomienda If I were, If he were, If she were. En conversación también se oye If I was, pero para estudiar usá were.

3. Explicacion paso a paso

La forma pasada en el Second Conditional crea distancia. Esa distancia puede ser de realidad: no es cierto ahora. Por eso If I had a car no significa si tuve un auto, sino si tuviera un auto.

First Conditional y Second Conditional pueden hablar del futuro, pero con diferente probabilidad. If I see Tom, I will tell him = posible. If I saw Tom, I would tell him = imaginario o menos probable.

If I were you es una fórmula fija para dar consejos. No significa literalmente que voy a ser vos; significa: en tu situación, yo haría esto.

Would expresa el resultado imaginario. No uses would en la parte con if en la estructura básica: If I would have money es incorrecto en B1 estándar.

Memoriza esto

If + Past Simple, would + verb.

No es pasado real; es hipótesis.

If I were you = consejo.

First = real; Second = imaginario/poco probable.

Lo que suelen evaluar

La trampa principal es usar would después de if. Correcto: If I had time, I would help.

También comparan First y Second: If I win vs If I won.

4. Ejemplos explicados

English	Spanish idea	Why it works
If I had more money, I would travel more.	Si tuviera más dinero, viajaría más.	Situación imaginaria presente/futura.
If she knew the answer, she would tell us.	Si supiera la respuesta, nos la diría.	Ella no sabe la respuesta ahora.
If I were you, I would talk to him.	Si yo fuera vos, hablaría con él.	Consejo.
What would you do if you lost your phone?	¿Qué harías si perdieras el teléfono?	Pregunta hipotética.
If we lived closer, we would meet more often.	Si viviéramos más cerca, nos veríamos más seguido.	La realidad es que no vivimos cerca.
If he worked harder, he could improve.	Si trabajara más, podría mejorar.	Could marca posibilidad.
I would buy it if it were cheaper.	Lo compraría si fuera más barato.	Orden invertido sin coma.
If they invited me, I might go.	Si me invitaran, quizás iría.	Might marca menor seguridad.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
If I would have money, I would travel.	If I had money, I would travel.	No uses would en la parte con if.
If I have a car, I would drive.	If I had a car, I would drive.	Second Conditional usa Past Simple en la condición.
If I was you, I would wait.	If I were you, I would wait.	Para examen, usá were.
If she knew, she will tell us.	If she knew, she would tell us.	Second Conditional necesita would en resultado.
I would traveled.	I would travel.	Después de would va verbo base.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

6. Practica guiada

Unit 8: Passive Voice

Objetivo de la unidad

Entender cómo enfocar la acción, el resultado o la persona/cosa afectada en vez de enfocar quién hizo la acción.

Idea central

La voz pasiva cambia el foco de la oración. En activa, el sujeto hace la acción: The chef cooked the meal. En pasiva, el sujeto recibe la acción: The meal was cooked by the chef.

En B1, la pasiva se usa mucho en noticias, procesos, reglas, textos académicos simples y descripciones de objetos o lugares.

No se usa para sonar complicado. Se usa cuando el agente no se sabe, no importa o es obvio.

Preguntas que esta unidad responde

¿Qué pasó?

¿A quién o a qué le pasó?

¿Importa quién lo hizo?

¿Cómo transformo activa en pasiva?

1. Uso: para que sirve

Antes de memorizar la forma, entendé la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Cuando no sabemos quién hizo la acción: My bike was stolen.
- Cuando no importa quién la hizo: The room is cleaned every day.
- Cuando el resultado importa más que el agente: The bridge was built in 1998.
- En procesos: The milk is heated and then it is mixed with sugar.
- En lenguaje formal: The decision was made after a long discussion.

2. Forma y estructura

Situation	Structure	Example
Present Simple Passive	am/is/are + past participle	English is spoken here.
Past Simple Passive	was/were + past participle	The window was broken.
Future Passive	will be + past participle	The results will be published tomorrow.
Modal Passive	modal + be + past participle	This must be finished today.

Nota de forma

La pasiva siempre necesita una forma de be y un participio. El tiempo verbal se muestra en be, no en el participio.

3. Explicacion paso a paso

Para formar la pasiva, tomá el objeto de la activa y convértilo en sujeto de la pasiva. Active: Somebody stole my bike. Passive: My bike was stolen.

El agente se puede agregar con by, pero solo si es importante: The book was written by Orwell. Si no aporta información, se omite.

No todos los verbos funcionan igual. La pasiva necesita verbos transitivos, es decir, verbos que toman objeto. You cannot easily make a passive from sleep because sleep has no object.

En B1, la pasiva suele aparecer con inventos, edificios, descubrimientos, procesos, noticias y reglas: The telephone was invented by Alexander Graham Bell. The documents must be signed.

Memoriza esto

Passive = be + past participle.

El objeto de la activa se vuelve sujeto.

By + agent es opcional.

El tiempo verbal está en be: is, was, will be, has been.

Lo que suelen evaluar

Suelen pedir transformar activa a pasiva manteniendo el tiempo verbal.

Ojo con concordancia: The letters were sent, no The letters was sent.

4. Ejemplos explicados

English	Spanish idea	Why it works
The car was repaired yesterday.	El auto fue reparado ayer.	Past passive: was + repaired.
English is spoken in many countries.	Se habla inglés en muchos países.	Present passive para hechos generales.
The invitations will be sent tomorrow.	Las invitaciones serán enviadas mañana.	Future passive.
This homework must be done today.	Esta tarea debe hacerse hoy.	Modal passive.
The Mona Lisa was painted by Leonardo da Vinci.	La Mona Lisa fue pintada por Leonardo da Vinci.	By es importante por el autor.
My phone has been stolen.	Me robaron el teléfono.	Resultado presente con passive perfect.
The windows are cleaned every week.	Las ventanas se limpian todas las semanas.	Rutina pasiva.
The film was directed by Greta Gerwig.	La película fue dirigida por Greta Gerwig.	Agente relevante.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
The window broken.	The window was broken.	Falta be.
The letters was sent.	The letters were sent.	Letters es plural.
The book wrote by her.	The book was written by her.	Necesita be + participio.
My bike was stole.	My bike was stolen.	Stolen es participio.
The homework must finished.	The homework must be finished.	Después de modal va be + participio.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frena y reconstruí la oración.

6. Practica guiada

Completa las oraciones. Primero pensá el significado; después elegí la forma.

Unit 9: Reported Speech

Objetivo de la unidad

Aprender a contar lo que otra persona dijo, preguntó o pidió sin repetir sus palabras exactas.

Idea central

Reported Speech es el estilo indirecto. En vez de citar exactamente, resumís o reportás el mensaje: "I am tired" becomes She said she was tired.

El punto difícil es que muchas veces cambian los tiempos verbales, pronombres y expresiones de tiempo.

No se trata de traducir palabra por palabra. Se trata de mover el mensaje al punto de vista de quien lo cuenta.

Preguntas que esta unidad responde

¿Quién dijo qué?

¿Desde qué punto de vista lo estoy contando?

¿Tengo que cambiar el tiempo verbal?

¿Es una afirmación, pregunta o pedido?

1. Uso: para que sirve

Antes de memorizar la forma, entendé la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Reportar afirmaciones: He said that he was busy.
- Reportar preguntas: She asked me where I lived.
- Reportar pedidos u órdenes: The teacher told us to open our books.
- Reportar ideas en conversaciones, noticias o historias.
- Cambiar pronombres y tiempos para que el mensaje tenga sentido desde el presente del narrador.

2. Forma y estructura

Situation	Structure	Example
Statement	said/told + (that) + subject + verb	She said that she was tired.
Reported question	asked + question word + subject + verb	He asked where I lived.
Yes/No question	asked + if/whether + subject + verb	She asked if I liked tea.
Command/request	told/asked + object + to + verb	He told me to wait.

Nota de forma

Usá told cuando mencionás a la persona que recibe el mensaje: She told me. Usá said si no hay objeto: She said that...

3. Explicacion paso a paso

Cuando el verbo introductorio está en pasado, muchas veces hacemos backshift: Present Simple -> Past Simple, Present Continuous -> Past Continuous, Present Perfect -> Past Perfect, will -> would, can -> could.

Los pronombres cambian según quién habla. Direct: "I love my job," Ana said. Reported: Ana said that she loved her job. I becomes she; my becomes her.

Las preguntas indirectas no tienen orden de pregunta. Direct: "Where do you live?" Reported: He asked where I lived. No digas He asked where did I live.

Las órdenes y pedidos se reportan con to + verb: "Sit down" -> The teacher told us to sit down. "Please help me" -> She asked me to help her.

Memoriza esto

Reported statement: said/told + subject + verb.

Reported question: asked + subject + verb order.

Commands: told/asked + object + to + verb.

said to me suena menos natural que told me.

Lo que suelen evaluar

En exámenes B1 suelen pedir transformar frases directas a indirectas.

La trampa más común es mantener el orden de pregunta: She asked where was I. Correct: She asked where I was.

4. Ejemplos explicados

English	Spanish idea	Why it works
He said he was tired.	Él dijo que estaba cansado.	am -> was.
She told me she liked music.	Ella me dijo que le gustaba la música.	told + me.
They said they had finished.	Dijeron que habían terminado.	Present Perfect -> Past Perfect.
He asked me where I lived.	Me preguntó dónde vivía.	Orden de afirmación.
She asked if I was hungry.	Preguntó si tenía hambre.	Yes/No question con if.
The teacher told us to be quiet.	El profesor nos dijo que hiciéramos silencio.	Orden con told + object + to.
He said he would call later.	Dijo que llamaría más tarde.	will -> would.
She asked me not to tell anyone.	Me pidió que no le dijera a nadie.	Negative command: not to.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
She said me she was tired.	She told me she was tired.	Con objeto se usa told.
He asked where did I live.	He asked where I lived.	Pregunta indirecta con orden de afirmación.
She told to me wait.	She told me to wait.	Told + object + to + verb.
He said he is busy.	He said he was busy.	Con reporting verb en pasado suele haber backshift.
She asked me where was the station.	She asked me where the station was.	Orden de afirmación.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

Unit 10: Relative Clauses

Objetivo de la unidad

Agregar información sobre personas, cosas, lugares o posesión sin empezar una oración nueva.

Idea central

Las relative clauses te permiten unir ideas: This is the woman. She helped me. -> This is the woman who helped me.

En B1 se estudian principalmente who, which, that, where y whose.

Sirven para describir con precisión y evitar frases cortadas o repetitivas.

Preguntas que esta unidad responde

¿Estoy hablando de una persona, cosa, lugar o posesión?

¿La información define exactamente de quién hablo?

¿Puedo unir dos oraciones?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Who para personas: The man who lives next door is friendly.
- Which para cosas o animales: The book which I bought is interesting.
- That para personas o cosas en defining clauses: The song that I like is old.
- Where para lugares: This is the cafe where we met.
- Whose para posesión: That is the girl whose brother is in my class.

2. Forma y estructura

Situation	Structure	Example
Person	noun + who/that + verb	The teacher who helped me was kind.

Situation	Structure	Example
Thing	noun + which/that + subject + verb	The phone that I bought is expensive.
Place	noun + where + subject + verb	This is the park where we play football.
Possession	noun + whose + noun + verb	I met a boy whose father is a doctor.

Nota de forma

En B1, concéntrate en definiendo relative clauses: información necesaria para identificar a la persona o cosa.

3. Explicación paso a paso

Una relative clause funciona como una descripción pegada a un sustantivo. En vez de decir The woman is my aunt. She is wearing a red dress, podés decir The woman who is wearing a red dress is my aunt.

Who se usa para personas cuando la cláusula habla de esa persona. Which se usa para cosas. That puede reemplazar a who o which en muchas cláusulas definitorias.

Where no significa simplemente "donde" en cualquier contexto; reemplaza una idea de lugar: the place where I was born, the restaurant where we had dinner.

Whose conecta una persona/cosa con algo que posee: the man whose car was stolen. Después de whose siempre aparece un sustantivo.

Memoriza esto

Who = people.

Which = things.

Where = places.

Whose = possession.

That = people or things in defining clauses.

Lo que suelen evaluar

Suelen pedir elegir who/which/where/whose.

Ojo: whose no significa who is. Whose + noun: whose sister, whose car, whose idea.

4. Ejemplos explicados

English	Spanish idea	Why it works
The woman who lives upstairs is a doctor.	La mujer que vive arriba es doctora.	Who porque es persona.
The book that you lent me is great.	El libro que me prestaste es genial.	That para cosa en defining clause.
This is the place where I grew up.	Este es el lugar donde crecí.	Where para lugar.
I know a girl whose brother is famous.	Conozco a una chica cuyo hermano es famoso.	Whose + brother.
The film which we watched was boring.	La película que vimos fue aburrida.	Which para cosa.
The people who work here are friendly.	La gente que trabaja aquí es amable.	Who para personas.
The restaurant where we ate was expensive.	El restaurante donde comimos era caro.	Lugar.
The dog that bit me was small.	El perro que me mordió era pequeño.	That puede usarse para animales/cosas.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
The man which helped me.	The man who helped me.	Personas -> who.
The place which I live.	The place where I live.	Lugar -> where.
The girl who brother is here.	The girl whose brother is here.	Posesión -> whose.
The book who I bought.	The book which/that I bought.	Cosas -> which/that.
This is the cafe where we met there.	This is the cafe where we met.	No repitas there si usás where.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

Unit 11: Gerunds and Infinitives

Objetivo de la unidad

Aprender qué verbos van seguidos de -ing, cuáles van con to + verb y cómo cambia el significado.

Idea central

Muchos verbos en inglés necesitan una segunda forma verbal. Esa segunda forma puede ser gerundio: I enjoy reading, o infinitivo: I want to read.

No siempre hay una regla lógica simple. En B1 se aprende una lista de verbos frecuentes y algunos patrones de significado.

Este tema es clave para sonar natural porque los errores se notan mucho: I enjoy to read suena incorrecto.

Preguntas que esta unidad responde

¿El primer verbo pide -ing o to?

¿Estoy hablando de gustos, planes, decisiones o propósito?

¿El significado cambia con remember, stop o try?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Gerundio después de enjoy, avoid, finish, mind, suggest, keep, practice.
- Infinitivo después de want, need, decide, hope, plan, learn, promise.
- Después de preposiciones va -ing: interested in learning, good at speaking.
- Infinitive of purpose: I went to the shop to buy bread.
- Like/love/hate pueden ir con -ing o to, con matices leves en B1.

2. Forma y estructura

Situation	Structure	Example
Verb + -ing	enjoy/finish/avoid + gerund	I enjoy reading.
Verb + to infinitive	want/need/decide + to + verb	She wants to leave.
Preposition + -ing	in/at/about/after/before + gerund	He is good at cooking.
Purpose	to + verb	I study to pass the exam.

Nota de forma

No uses to después de modal verbs: I can swim, no I can to swim. Eso es otro patrón importante.

3. Explicacion paso a paso

El gerundio funciona como una actividad o idea general: Reading is relaxing. I enjoy reading. El infinitivo muchas veces mira hacia una intención, plan, necesidad o decisión: I want to read, I decided to read.

Después de preposiciones siempre usá -ing: before leaving, after eating, without saying goodbye, interested in learning. Esto es muy útil para writing B1.

Algunos verbos aceptan ambas formas pero pueden cambiar el significado. Stop smoking = dejar de fumar. Stop to smoke = parar para fumar. En B1, conviene aprender ejemplos fijos.

Infinitive of purpose responde a "para qué": I went to the library to study. No digas for study en este contexto.

Memoriza esto

Enjoy, avoid, finish, mind, suggest -> -ing.

Want, need, decide, hope, plan, promise -> to + verb.

Después de preposición -> -ing.

Purpose: to + verb.

Lo que suelen evaluar

Suelen preguntar verb patterns y preposition + -ing.

Error muy común: I went to the shop for buy. Correct: to buy.

4. Ejemplos explicados

English	Spanish idea	Why it works
I enjoy listening to music.	Disfruto escuchar música.	Enjoy + -ing.
She decided to study medicine.	Decidió estudiar medicina.	Decide + to.
We finished cleaning the room.	Terminamos de limpiar el cuarto.	Finish + -ing.
He wants to improve his English.	Quiere mejorar su inglés.	Want + to.

Avoid eating too much sugar.	Evitá comer demasiada azúcar.	Avoid + -ing.
They hope to win the match.	Esperan ganar el partido.	Hope + to.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
I enjoy to read.	I enjoy reading.	Enjoy + -ing.
She wants leaving.	She wants to leave.	Want + to.
I am good at speak English.	I am good at speaking English.	After preposition -> -ing.
I went to the shop for buy bread.	I went to the shop to buy bread.	Purpose -> to + verb.
He can to swim.	He can swim.	Modal + base verb, no to.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

Unit 12: Modals of Deduction

Objetivo de la unidad

Usar must, might, could y can't para hacer deducciones sobre una situación.

Idea central

Los modals of deduction sirven para expresar qué tan seguro estás de una conclusión. No estás describiendo un hecho directo; estás interpretando evidencia.

Must no significa obligación en este uso, sino deducción fuerte: She must be tired = seguro está cansada.

Can't expresa que algo parece imposible: He can't be at home; his car isn't there.

Preguntas que esta unidad responde

¿Qué evidencia tengo?

¿Qué tan seguro estoy?

¿Es casi seguro, posible o imposible?

1. Uso: para que sirve

Antes de memorizar la forma, entendé la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Must para deducción muy probable: He must be rich.
- Might/may/could para posibilidad: She might be at work.
- Can't para imposibilidad lógica: That can't be true.
- Con be para estados presentes: They must be tired.
- Con verbos en continuo: He might be sleeping.

2. Forma y estructura

Situation	Structure	Example
Strong positive deduction	must + base verb	She must be tired.
Possibility	might/may/could + base verb	He might know the answer.
Strong negative deduction	can't + base verb	This can't be right.
Action now	modal + be + verb-ing	They must be waiting outside.

Nota de forma

En B1, must = estoy casi seguro. Might/could = es posible. Can't = estoy casi seguro de que no.

3. Explicacion paso a paso

La diferencia principal es grado de certeza. Si ves a alguien bostezando después de trabajar 12 horas, decís: She must be tired. Si no estás seguro dónde está, decís: She might be at home. Si la viste salir del país, decís: She can't be in class today.

No confundas must de deducción con must de obligación. You must study = obligación. You must be tired = deducción. El contexto decide el significado.

En speaking, estos modales te permiten sonar más natural porque no afirmás todo como hecho absoluto. En B1 es importante expresar incertidumbre: It might be expensive, He could be busy, That can't be easy.

Con acciones en progreso, usá be + -ing después del modal: He might be sleeping. They must be working.

Memoriza esto

must = casi seguro que sí.

might/may/could = tal vez.

can't = casi seguro que no.

modal + base verb; modal + be + -ing para acción ahora.

Lo que suelen evaluar

Suelen pedir elegir el modal según la evidencia.

Atención: mustn't no es la forma negativa de deducción. Para deducción negativa se usa can't.

4. Ejemplos explicados

English	Spanish idea	Why it works
She must be exhausted.	Debe estar agotada.	Evidencia fuerte.
He might be at the gym.	Quizás esté en el gimnasio.	Posibilidad.
That can't be Maria. She is in Spain.	No puede ser María. Está en España.	Imposibilidad lógica.
They could know the answer.	Podrían saber la respuesta.	Posibilidad.
He must be working now.	Seguro está trabajando ahora.	Acción en progreso.
This might be difficult.	Esto puede ser difícil.	Predicción incierta.
You can't be serious.	No podés hablar en serio.	Deducción negativa fuerte.
She may need help.	Puede que necesite ayuda.	Posibilidad formal/neutra.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
She must to be tired.	She must be tired.	Después de modal va verbo base sin to.
He maybe is at home.	He might be at home.	Maybe es adverbio; might es modal más natural aquí.
That mustn't be true.	That can't be true.	Deducción negativa fuerte = can't.
They might are sleeping.	They might be sleeping.	Modal + be + -ing.
He can't to know.	He can't know.	No to después de modal.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

6. Practica guiada

Unit 13: Too and Enough

Objetivo de la unidad

Expresar exceso o suficiencia: cuando algo es demasiado, o cuando alcanza para un propósito.

Idea central

Too significa demasiado: más de lo conveniente. Enough significa suficiente: la cantidad o grado necesario.

Estas estructuras son muy útiles para explicar problemas: It is too expensive. It isn't cheap enough.

En B1 también se usan con infinitivo: too difficult to understand, old enough to drive.

Preguntas que esta unidad responde

¿Hay exceso o suficiencia?

¿Too va antes de adjetivo?

¿Enough va antes o después?

1. Uso: para que sirve

Antes de memorizar la forma, entendé la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Too + adjective/adverb: too cold, too quickly.
- Adjective/adverb + enough: warm enough, quickly enough.
- Enough + noun: enough money, enough time.
- Too/enough + to infinitive: too tired to study, old enough to drive.
- Not enough para insuficiencia: not strong enough.

2. Forma y estructura

Situation	Structure	Example
Excess	too + adjective/adverb	This bag is too heavy.
Sufficient degree	adjective/adverb + enough	This room is big enough.
Sufficient quantity	enough + noun	We have enough time.
Result	too/enough + to + verb	She is too tired to work.

Nota de forma

Too siempre tiene una idea negativa o problemática. Very solo intensifica; too significa más de lo correcto.

3. Explicacion paso a paso

Too responde a la idea "más de lo que conviene". Very hot solo dice muy caliente. Too hot significa tan caliente que hay un problema: I can't drink it.

Enough cambia de posición. Con adjetivos va después: old enough. Con sustantivos va antes: enough money. Este patrón aparece mucho en ejercicios.

Con to + verb podés expresar consecuencia: The box is too heavy to carry. He is old enough to vote.

Not + adjective + enough muchas veces equivale a too + opposite adjective: not cheap enough = too expensive.

Memoriza esto

Too + adjective.

Adjective + enough.

Enough + noun.

Too much/too many para sustantivos.

Too significa problema; very no necesariamente.

Lo que suelen evaluar

Suelen pedir reescribir usando too o enough.

Ojo con la posición: enough old es incorrecto; old enough.

4. Ejemplos explicados

English	Spanish idea	Why it works
The coffee is too hot to drink.	El café está demasiado caliente para beber.	Too + adjective + to.
She is old enough to drive.	Tiene edad suficiente para manejar.	Adjective + enough + to.

He isn't tall enough.	No es lo suficientemente alto.	Not + adjective + enough.
You are speaking too fast.	Estás hablando demasiado rápido.	Too + adverb.
There are too many people.	Hay demasiadas personas.	Too many + countable noun.
There is too much noise.	Hay demasiado ruido.	Too much + uncountable noun.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
She is enough old.	She is old enough.	Enough va después del adjetivo.

He is too young enough.	He is too young / not old enough.	No mezcles too y enough así.

Unit 14: So and Such

Objetivo de la unidad

Intensificar ideas y expresar resultado usando so, such, so much, so many y such a/an.

Idea central

So y such significan algo parecido a "tan", pero se usan con estructuras diferentes. So suele ir con adjetivos/adverbios. Such va con sustantivos o frases nominales.

Son muy comunes en speaking y writing porque ayudan a enfatizar: It was so interesting. It was such an interesting book.

En B1 aparecen también con that para expresar consecuencia: It was so cold that we stayed home.

Preguntas que esta unidad responde

¿Después viene un adjetivo solo o un sustantivo?

¿Necesito a/an?

¿Hay consecuencia con that?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- So + adjective/adverb: so tired, so quickly.
- Such + noun phrase: such a good film, such nice people.
- So much + uncountable noun: so much noise.
- So many + plural countable noun: so many books.
- So/such + that: It was so late that we left.

2. Forma y estructura

Situation	Structure	Example
Adjective/adverb	so + adjective/adverb	She is so kind.
Singular countable noun	such + a/an + adjective + noun	It was such a good day.
Plural/uncountable noun	such + adjective + noun	They are such nice people.
Result	so/such + ... + that	It was so cold that I stayed home.

Nota de forma

Such necesita sustantivo. So no necesita sustantivo. Compare: so beautiful / such a beautiful place.

3. Explicacion paso a paso

So intensifica una cualidad: so tired, so expensive, so carefully. Such intensifica una cosa o tipo de cosa: such a problem, such a beautiful city, such difficult questions.

Con sustantivos contables singulares necesitas a/an: such a nice person, such an interesting idea. Sin a/an suena incompleto.

Con plural y uncountable no se usa a/an: such beautiful flowers, such bad weather.

So much y so many se usan para cantidades: so much homework, so many mistakes.

Memoriza esto

So + adjective/adverb.

Such + noun phrase.

Such a/an + singular countable.

So much + uncountable; so many + plural countable.

Lo que suelen evaluar

La trampa es elegir so o such mirando la palabra inmediatamente después. Si hay adjective + noun, probablemente such.

Such a good movie, no so good movie cuando movie está incluido.

4. Ejemplos explicados

English	Spanish idea	Why it works
The test was so difficult.	El examen fue tan difícil.	So + adjective.
It was such a difficult test.	Fue un examen tan difícil.	Such + a + adjective + noun.

They are such friendly people.	Son personas tan amables.	Plural noun phrase.

Unit 15: Question Tags

Objetivo de la unidad

Usar pequeñas preguntas al final de una frase para confirmar información o mantener una conversación.

Idea central

Question tags son mini-preguntas al final de una oración: You are tired, aren't you?

Se usan para confirmar, mostrar sorpresa o invitar a la otra persona a responder.

El patrón básico es equilibrio: oración afirmativa + tag negativa; oración negativa + tag afirmativa.

Preguntas que esta unidad responde

¿La oración principal es afirmativa o negativa?

¿Qué auxiliar necesito repetir?

¿Cuál es el sujeto pronombre?

1. Uso: para que sirve

Antes de memorizar la forma, entendé la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Confirmar información: You live here, don't you?
- Pedir acuerdo: It's beautiful, isn't it?
- Mostrar sorpresa: You didn't know, did you?
- Mantener la conversación: Nice day, isn't it?
- Sonar más natural en speaking.

2. Forma y estructura

Situation	Structure	Example
Positive statement	positive sentence + negative tag	She is Spanish, isn't she?
Negative statement	negative sentence + positive tag	You aren't tired, are you?
Present Simple	do/does in tag	He works here, doesn't he?
Past Simple	did in tag	They left early, didn't they?

Nota de forma

El tag usa el auxiliar de la oración. Si no hay auxiliar visible en Present/Past Simple, usá do/does/did.

3. Explicacion paso a paso

La primera decisión es si la oración principal es positiva o negativa. Positive -> negative tag: You like coffee, don't you? Negative -> positive tag: You don't like coffee, do you?

La segunda decisión es el auxiliar. Con be, repetís be: She is, isn't she? Con can, repetís can: You can swim, can't you? Con Present Simple, usás do/does.

El sujeto del tag suele ser pronombre: Maria is late, isn't she? The students are ready, aren't they? This book is yours, isn't it?

La entonación cambia el sentido. Si sube, realmente preguntás. Si baja, buscás confirmación. En PDF no escuchamos entonación, pero en speaking es importante.

Memoriza esto

Positive sentence -> negative tag.

Negative sentence -> positive tag.

No auxiliary? Use do/does/did.

I am -> aren't I? (special case).

Lo que suelen evaluar

Suelen evaluar concordancia de auxiliar y sujeto.

Casos frecuentes: Let's..., shall we? / I am..., aren't I?

4. Ejemplos explicados

English	Spanish idea	Why it works
You are coming, aren't you?	Venís, ¿no?	Positive + negative tag.
She isn't ready, is she?	No está lista, ¿verdad?	Negative + positive tag.
He likes coffee, doesn't he?	Le gusta el café, ¿no?	Present Simple con he -> does.
They went home, didn't they?	Se fueron a casa, ¿no?	Past Simple -> did.
You can swim, can't you?	Sabés nadar, ¿no?	Modal can se repite.
I am late, aren't I?	Estoy tarde, ¿no?	Caso especial.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
You are tired, are you?	You are tired, aren't you?	Positive sentence needs negative tag.
She likes tea, isn't she?	She likes tea, doesn't she?	Likes usa Present Simple, no be.
They went home, weren't they?	They went home, didn't they?	Past Simple action verb -> did.
I am right, amn't I?	I am right, aren't I?	Caso especial.
Let's start, do we?	Let's start, shall we?	Let's -> shall we.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

Unit 16: Indirect Questions

Objetivo de la unidad

Hacer preguntas de forma más educada, formal o natural en contextos sociales y escritos.

Idea central

Indirect questions son preguntas dentro de una frase más larga: Where is the station? -> Could you tell me where the station is?

La clave es que la pregunta indirecta usa orden de afirmación, no orden de pregunta.

Son muy útiles para pedir información con educación, especialmente en emails, viajes, tiendas, escuela y entrevistas.

Preguntas que esta unidad responde

¿Cómo hago que una pregunta suene más educada?

¿Qué pasa con el orden de las palabras?

¿Uso if/whether en yes/no questions?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Pedir información educadamente: Could you tell me where the bank is?
- Preguntar en emails formales: I would like to know when the course starts.
- Hacer preguntas menos directas: Do you know if she is coming?
- Introducir dudas: I wonder what time it is.
- Evitar sonar brusco en situaciones formales.

2. Forma y estructura

Situation	Structure	Example
Wh-question	intro phrase + wh-word + subject + verb	Do you know where he lives?
Be question	intro phrase + wh-word + subject + be	Can you tell me where the station is?
Yes/No question	intro phrase + if/whether + subject + verb	Do you know if she likes coffee?
Formal request	Could you tell me...? / I would like to know...	Could you tell me when it starts?

Nota de forma

No uses auxiliar do/does/did dentro de la pregunta indirecta: Where does he live? -> Do you know where he lives?

3. Explicacion paso a paso

Una pregunta directa puede sonar normal entre amigos: Where is the bathroom?
En un contexto más educado, indirect question suena mejor: Could you tell me where the bathroom is?

El cambio más importante es el orden. Direct: Where are you? Indirect: Do you know where you are? Direct: What does she want? Indirect: Do you know what she wants?

En preguntas de sí/no, usá if o whether: Is he coming? -> Do you know if he is coming? Did they arrive? -> Do you know whether they arrived?

Aunque la frase completa sea pregunta, la parte interna no tiene orden interrogativo. Esto también ayuda en Reported Speech.

Memoriza esto

Indirect question = polite frame + normal sentence order.

Wh-word stays: where, what, why, when.

Yes/No -> if/whether.

No do/does/did in the embedded question.

Lo que suelen evaluar

La trampa principal es mantener el orden directo: Could you tell me where is the station? Incorrecto.

También aparece en transformations: Where does he live? -> Do you know where he lives?

4. Ejemplos explicados

English	Spanish idea	Why it works
Could you tell me where the station is?	¿Podría decirme dónde está la estación?	Orden afirmativo: station is.
Do you know what time it starts?	¿Sabés a qué hora empieza?	No does it start.
I would like to know if the course is available.	Me gustaría saber si el curso está disponible.	Yes/no con if.
Can you tell me how much it costs?	¿Podés decirme cuánto cuesta?	Costs con subject it.
Do you know where she lives?	¿Sabés dónde vive ella?	No where does she live.
I wonder why he left.	Me pregunto por qué se fue.	Orden afirmativo.
Could you explain how this works?	¿Podría explicar cómo funciona esto?	How + subject + verb.
Do you know whether they arrived?	¿Sabés si llegaron?	Whether alternativa a if.

Leelos en voz alta. En este nivel conviene repetir ejemplos correctos hasta que la estructura empiece a sonar natural.

5. Errores comunes

Incorrect	Correct	Explanation
Can you tell me where is the bank?	Can you tell me where the bank is?	Orden afirmativo.
Do you know where does he live?	Do you know where he lives?	No does dentro.

Incorrect	Correct	Explanation
I want to know what did she say.	I want to know what she said.	No did dentro.
Could you tell me is he here?	Could you tell me if he is here?	Yes/no question necesita if/whether.
Do you know what time does it start?	Do you know what time it starts?	No does dentro.

No estudies los errores para repetirlos: usalos como alarmas. Si tu frase se parece a la columna incorrecta, frená y reconstruí la oración.

Unit 17: Connectors

Objetivo de la unidad

Unir ideas de forma clara para escribir y hablar con más fluidez en nivel B1.

Idea central

Connectors son palabras o frases que muestran relación entre ideas: contraste, causa, resultado, adición, ejemplo o conclusión.

En B1, usar conectores correctamente puede mejorar mucho un writing o speaking porque evita oraciones aisladas.

No se trata de poner conectores al azar. Cada conector tiene una función lógica.

Preguntas que esta unidad responde

¿Estoy agregando, contrastando, explicando causa o resultado?

¿El conector va al principio o en medio?

¿Es formal o informal?

1. Uso: para que sirve

Antes de memorizar la forma, entendí la función. En B1 no alcanza con saber completar huecos: tenés que saber elegir la estructura correcta cuando hablás, escribís o leés.

- Addition: also, too, as well, in addition.
- Contrast: but, however, although, even though.
- Cause: because, since, as.
- Result: so, therefore, as a result.
- Example: for example, for instance, such as.
- Conclusion: in conclusion, overall, to sum up.

2. Forma y estructura

Situation	Structure	Example
Addition	idea + also / in addition	I like reading. I also enjoy films.

Situation	Structure	Example
Contrast	although + clause / however, sentence	Although it was cold, we went out.
Cause	because + reason	I stayed home because I was tired.
Result	so + result / therefore + result	I was tired, so I went home.

Nota de forma

Although y but no se usan juntos para unir la misma oposición: Although it was raining, we went out. No: Although it was raining, but we went out.

3. Explicacion paso a paso

Un conector no decora una frase; muestra cómo se relaciona con otra. Because responde "por qué". So responde "qué pasó como resultado". However marca contraste entre ideas.

Although introduce una idea sorprendente o contraria a la principal: Although I was tired, I kept studying. However suele conectar dos oraciones: I was tired. However, I kept studying.

Therefore y as a result son más formales que so. En un email informal, so está bien. En un essay básico, therefore puede sonar mejor si se usa correctamente.

En writing B1, necesitas variedad. Si todas las oraciones empiezan con and/but/because, el texto suena simple. Agregar although, however, for example, as a result y in conclusion mejora la organización.

Memoriza esto

Because = reason.

So = result.

Although = contrast inside one sentence.

However = contrast between sentences.

For example = example.

In conclusion = final idea.

Lo que suelen evaluar

Suelen pedir elegir el conector lógico según el sentido de la oración.

También evalúan puntuación: However, suele llevar coma después al inicio de oración.

4. Ejemplos explicados

English	Spanish idea	Why it works
I stayed home because I was sick.	Me quedé en casa porque estaba enfermo.	Because introduce razón.
I was sick, so I stayed home.	Estaba enfermo, entonces me quedé en casa.	So introduce resultado.
Although it was raining, we played football.	Aunque llovía, jugamos al fútbol.	Contraste inesperado.
It was raining. However, we played football.	Llovía. Sin embargo, jugamos al fútbol.	Contraste entre oraciones.
I like outdoor activities such as cycling and hiking.	Me gustan actividades al aire libre como andar en bici y hacer senderismo.	Such as introduce ejemplos.
In addition, the course is affordable.	Además, el curso es accesible.	Agrega argumento.
